# NDP... Keeping Saskatchewan Ahead.

ARCHIVES  
OF  
SASKATCHEWAN

NDP (Leak.) #58  
P. 1. P. 1.

# Premier Allan Blakeney ... the best man for Saskatchewan's future.

Allan Blakeney. Our Premier. Rhodes Scholar, spokesman for the West, acclaimed even in the eastern press as the most impressive of all provincial premiers. A statesman. A leader. A man of integrity and ability who will fight for the best deal for the people of Saskatchewan.

Allan Blakeney listens to people. He has brought government close to the people through his bus tours, open public Cabinet meetings, the Provincial Inquiry Centre and the Ombudsman.

A bond of trust and respect has been built between the Blakeney NDP Government and the people of Saskatchewan. In 1971, the NDP was elected on a program of 140 promises — and four years later those promises have been kept — a proud record!

Now the Blakeney Government presents a new program: New Deal '75! Developed by thousands of ordinary people across the province. It carries the same pledge as the first New Deal in 1971 — you know it will be honored!

**Saskatchewan is enjoying record prosperity: More jobs than ever before; lowest unemployment in Canada; retail trade at record levels; manufacturing at new peaks; more resource revenue than ever before; population growing again. But we're at the crossroads. Vote the Blakeney Team — Keeping Saskatchewan ahead!**

We'll need boldness, imagination and determination to keep Saskatchewan ahead. The powers that want to tear up our rail lines, give away our resources and destroy the family farm — they still threaten our prosperity and our way of

life. We need a government we can trust — to keep farmers on the land, to keep our young people in Saskatchewan, to get the best deal for our oil and potash.

We've got good times in Saskatchewan. Don't let them take it away.

**TIM FRIESEN**  
Rosheim

Laird district farmer, active community worker, Tim Friesen is married, two sons. Director of Laird Co-op for 11 years, five as President; Wheat Pool delegate, secretary-treasurer of school board; secretary church board.

**HENRI SAUCIER**  
Regina Lakeview

One of the bright newcomers on the NDP team, Henri is a 29 year old school teacher. Past political experience includes a creditable showing as NDP candidate for City Council in 1973. Married, two children.

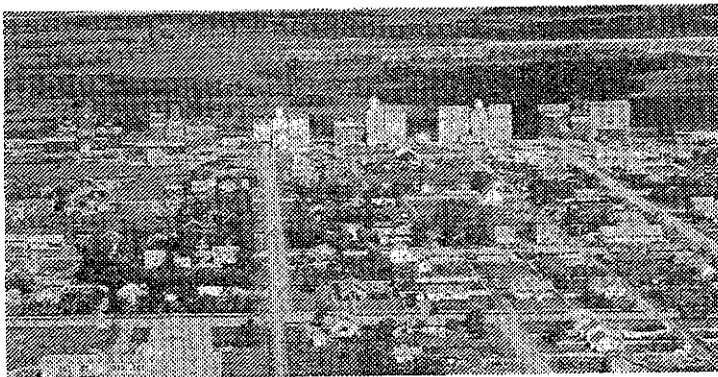

**ROY ROMANOW**  
Saskatoon Riversdale

Lawyer, Attorney-General, Deputy Premier. Roy has a penchant for hard work and a love for the thrust of legislative debate. First elected in 1967. Married.

Liberal politicians are still attacking rural Saskatchewan. With policies like branch line abandonment, corporate farms, gigantic inland terminals — wiping out 750 of Saskatchewan's 800 grain delivery points! — and worst of all, the threat to the Crowsnest rates. Only the NDP stands in the way of this assault on rural Saskatchewan.

The Blakeney team will continue the fight to defend the family farm and our small towns.

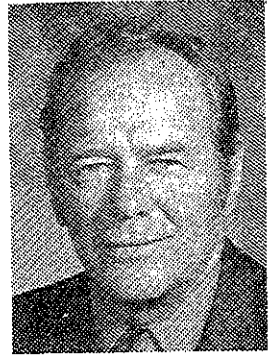

We need a government prepared to stand four-square with rural Saskatchewan.

People in our small towns enjoy a way of life that is uniquely Saskatchewan. Your NDP government is committed to preserve and develop rural Saskatchewan — with more programs like:

- Operation Main Street
- Operation Open Roads
- New Sewer and water systems
- Low cost senior citizens' housing
- Community Colleges
- Nursing homes and grants for new rinks and swimming pools

We'll begin our new "super grid" system, bringing people and services closer together — an inland terminal system would place such a heavy burden on our roads that we wouldn't be able to afford both to build a super grid and maintain our present roads.

The NDP will keep our small towns ahead with more grants, more help for small business and better roads and services.

**EILING KRAMER**  
The Battlefords  
Mention The Battlefords, and the name Eiling Kramer springs to mind. This colourful candidate has been MLA for "The Batts" since 1952. Auctioneer, rancher, former lumberjack and policeman, Eiling is married with eight children.

**ALLAN OLIVER**  
Sharnavon  
Quiet and concerned, this 39 year old teacher-farmer works hard for his constituents. First elected in 1971. Married, with a son and a daughter.

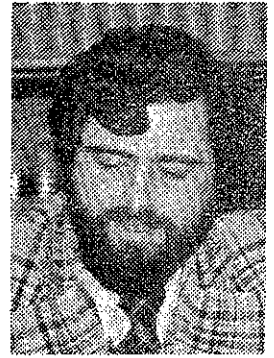

**ANNE BOULTON**  
Saskatoon Sutherland  
A concern for social and economic problems has led Anne Boulton into active political life. Currently doing graduate work and teaching at the College of Education. Also vice-president, Family Planning Association. Married, four children.

**Agriculture is Saskatchewan's number one business — in spite of disastrous Liberal policies like LIFT and The Task Force Report. Under NDP leadership — Agriculture budget four times what it was under the Liberals — new programs like Land Bank, FarmStart, Hog Stabilization and many more — Saskatchewan Agriculture has come to life again. Keep the family farm, keep young people in farming, keep Agriculture ahead. Vote the Blakeney Team!**

In 1971, the agriculture department, like agriculture itself, had been almost strangled — a budget of only \$16 million. Liberals said two out of three farmers must go. In 1975, agriculture department budget up to \$60 million; 1,000 new young farmers on the land through Land Bank; 2,000 farmers helped by FarmStart — more than half under 24 years; Crop Insurance increased 17 times over 1971; plus Cow Calf Cash Advances. Hog Price Support Program, the Farm Machinery In-

stitute and the Hog Marketing Commission — all helping Saskatchewan farmers keep ahead. A vote for the Blakeney Team will be a vote for Saskatchewan Agriculture — More programs to keep Saskatchewan farmers ahead: Veticare — emphasizing preventive care for livestock; improved and expanded Crop Insurance; an expanded seed-cleaning program. And continued opposition to Liberal plans to abolish the Crow rates and abandon rail lines.

**MURRAY WALTER**  
Swift Current

Another of the young and capable new candidates on the New Democratic team. A lawyer, Murray has served as Director of Saskatchewan Minerals and on Cypress Hills Community College Advisory Committee. Married, 28, three children.

**TED BOWERMAN**  
Shellbrook

A man of tireless energy, Ted has handled, with patience, the tough job as Minister of the new Department of Northern Saskatchewan. First elected in 1967, Ted is 44, a farmer and forestry expert. Married, two sons.

**MURRAY KOSKIE**  
Quill Lakes

A 44 year old lawyer, Murray has had a varied career, ranging from a law practice in northern Canada to a job as Special Assistant to Premier Blakeney. Married, three children.

**Saskatchewan people take pride in their educational system. Seven years of Liberal tampering nearly wrecked what had been built. The confrontation and bitterness of the Liberal years are gone. New programs — kindergarten, community colleges, school dental care, fall conferences to discuss public issues — are giving new direction to Saskatchewan education. The Blakeney Team will expand and improve our education system — making high quality education accessible to all.**

A new spirit has come into our educational system replacing the strife sown by seven years of Liberal mismanagement — one of optimism. Teachers can turn their minds from bargaining to teaching again. Unconditional grants to school boards and increased Property Improvement Grants now pay 75 % of basic school costs — taking care of rising costs and leaving enough to improve courses. Schools are offering improved standards PLUS courses which bring our children face to face with the world of nature and the world around them. The pressures of the education mill

rate, the confrontations, the bitterness — all done away with. Replaced by co-operation and new ideas: Community Colleges, 1,000 new spaces in technical education, bursaries increased from \$850 to \$1,000, when Property Improvement Grants are counted. Effective mill rates for basic school purposes cut from an average 45 mills to 23!

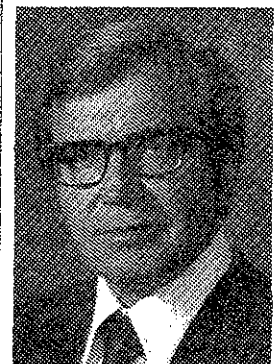

There's a bright future with your NDP government making education a top priority — an expansion of Community Colleges, physical education programs, more resources for teachers and improved teacher training.

**HERMAN ROLFES**  
Saskatoon Buena Vista  
Herman Rolfes has made an impact during the past four years as an articulate spokesman on behalf of his constituents. A separate school teacher, Herman is married with two children.

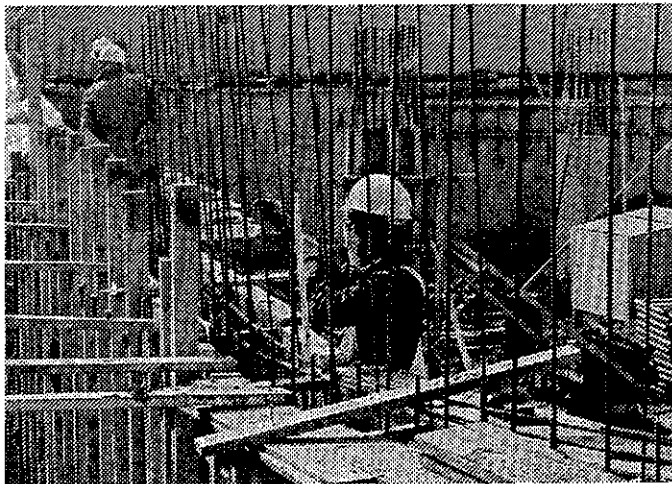

**JIM MURDOCK**  
Thunder Creek  
Farmer, NDP organizer, and active member in his community, Jim has worked in election campaigns from British Columbia to Prince Edward Island. He was the NDP candidate in the Morse byelection of 1971. Married, two children.

**WALTER SMISHEK**  
Regina North East  
Minister of Health, Walter Smishek is a tireless worker and a man who gets things done. Almost 20 years in the labour movement, he has been MLA for 11 years. Married, three children.

**Full employment — Canada's best labour Standards Act — Occupational Health and Safety that is the envy of North America — an enlightened Labour Relations Act — a strengthened Department of Labour — all new since 1971 when Liberal mismanagement brought relations between employers and employees to an all-time low and unemployment to a modern high. Vote NDP — the Blakeney Team — for continued full employment and high labour standards.**

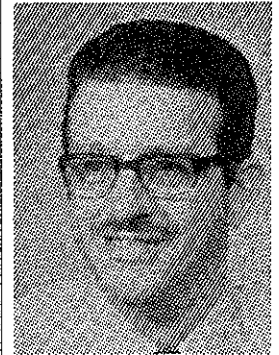

Saskatchewan has the most progressive labour climate in Canada — your NDP government has repealed Bill 2, doubled the minimum wage in just four short years, established the 40 hour work week, America's best Occupational Health and Safety Program and improved Workers' Compensation. The Family Income Plan is helping low income working families to meet inflation — providing an incentive to stay in the work force. In our second term of office, we'll introduce an income security plan for sickness

and accident disability, initiate plans to introduce a contributory provincial pension plan and bring in legislation to better benefits for part-time workers. More emphasis will be placed on training, re-training and upgrading as well as apprenticeship programs, while improvements in Workers' Compensation and safety in the workplace will continue. Good working conditions and wages benefit the whole community — an NDP government will continue to make Saskatchewan a good place to work in.

**NED SHOLLINGTON**  
Regina Centre  
Ned has a great deal of experience gained as a practicing lawyer, as Executive Assistant to Attorney General Roy Romanow, and as a former NDP candidate in Moosomin. Ned is 30 and married.

**ALEX TAYLOR**  
Kindersley  
Capable, compassionate, Alex is Minister of Social Services and Minister in Charge of the Public Service Commission. A United church Minister and former telephone lineman, Alex is married, with three children.

**EDGAR KAEDING**  
Saltcoats  
Since his election in 1971, this Churchbridge district farmer has impressed with his level-headed approach to his work. Active in co-operative, credit union and agricultural organizations for 25 years. Married, two sons, two daughters.

**Resources: Oil. Potash. Owned by the people of Saskatchewan. But the Liberals want the lion's share of the benefits for Ottawa and their corporate friends. Our future depends on what we do with our depleting resources. We need the tough, independent, Blakeney NDP Government to defend those resources.**

Saskatchewan's legal right to control its own resources is under attack. Ottawa has imposed a heavy and unfair double tax on provincial royalties to try to force the province to give up revenue.

They kept down the price of our oil in central Canada, while we continued to pay the full world price, or more, for the goods we buy from central Canada.

Now that the value of our resources has gone up, we have a chance to catch up. To diversify our economy; create more jobs and new industries; stabilize our farm incomes; get a better transportation system.

Resource revenues are the key to Saskatchewan's success.

But other political parties don't want the benefits of our resources to come to the people of Saskatchewan. They say the NDP Government is greedy.

They say we shouldn't squabble with Ottawa — we should let Ottawa have its way. We should give the revenues from our resources to the multi-national corporations and hope for the best.

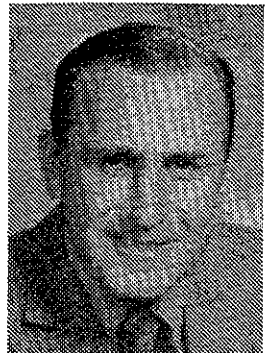

The NDP says that Saskatchewan resources belong to Saskatchewan people.

We need the full benefits of our resources to keep Saskatchewan moving ahead. The NDP seeks a new mandate to continue its defence of those resources.

**RANDY NELSON**  
Yorkton

A commitment to social change and a concern for people best describe this Yorkton candidate. A teacher for 22 years, Randy has been a member and officer of a number of educational organizations. Married, five children.

**GORDON MacMURCHY**  
Last Mountain —  
Torchwood

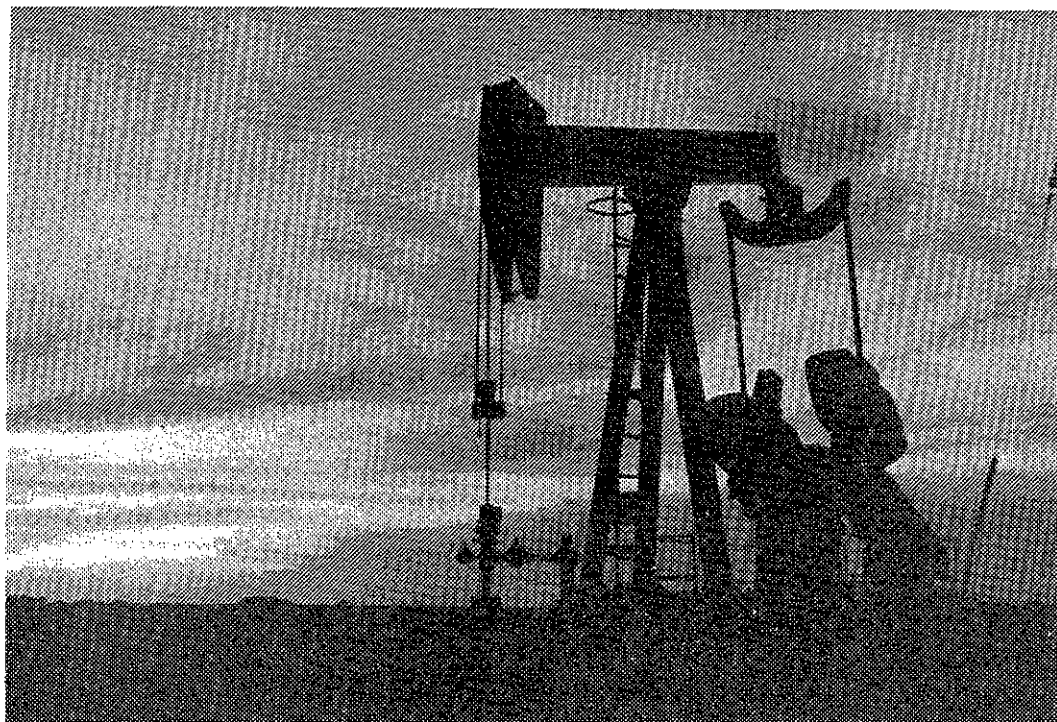

Farmer, former hockey player and baseball umpire, Gordon is the tough, dedicated Minister of Education and Continuing Education in the Blakeney government. First elected in 1971. Married, three children.

**BEV DYCK**  
Saskatoon Mayfair

Since his election in 1971, Bev has had to handle the doubly demanding jobs of NDP Caucus Chairman and Deputy Speaker. A school teacher by profession, Bev is 39, married, with one son.

Provincial taxes are going down this year. Taxpayers are getting more for their tax dollar. Some services, costly elsewhere, are free or low-priced in Saskatchewan. The NDP aims to cut school taxes even more and make our tax system fair for everyone. Increased resource revenue will help to do it.

Your NDP Government is careful with your tax money. Taxes are steady or going down, yet the NDP has expanded services, grants, and programs to boost the incomes of senior citizens and working families. It even abolished one indirect tax — the medicare premiums. And the tax on meals and books.

It has brought in a balanced budget as a means of helping to fight inflation. And it is putting money away for the day when our economy may need help.

How has this prudent management been possible? Resource revenues, as a direct result of NDP resource policies, are the single largest source of new money.

Our resources have made it possible to pass on a great deal of money directly to the people of the province in tax rebates, grants, new programs, assistance to municipalities, school boards and other groups.

In its next term of office, the NDP will seek ways to keep taxes down and to continue to make our tax system fairer by easing the tax burden on those least able to pay.

Fair taxes. More help and tax relief for pensioners and people on lower incomes. Continued good value for our taxes. These are NDP tax policies for the years ahead.

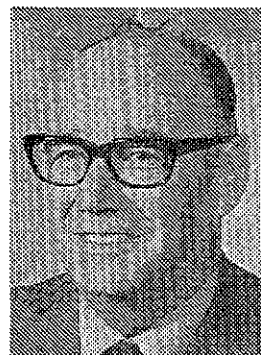

**KIM THORSON**  
Estevan

Lawyer, former Mineral Resources Minister, now Minister of Industry and Commerce. Elected in 1971, this was Kim's second stint in the legislature. He was MLA for Souris-Estevan from 1956-1960. Married, three children.

**AGNES GROOME**  
Regina Wascana

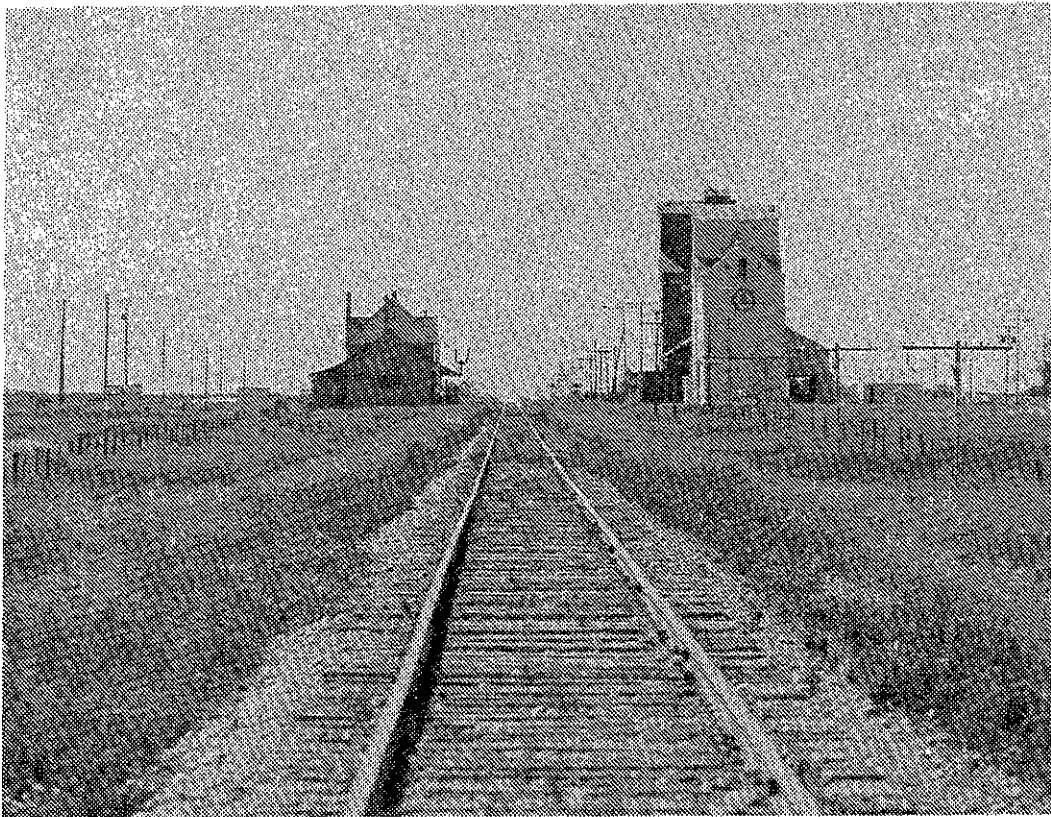

A tireless campaigner with a brilliant academic record. Holder of a Ph.D., two Master of Arts degrees, a Bachelor of Arts, a Bachelor of Education, and a Diploma in Theology. Married, three daughters.

**AUBURN PEPPER**  
Weyburn

Auburn is one of the most conscientious and respected members of the legislature. He has served the Weyburn constituency for 11 years. Government Whip for the past four years. A retired farmer, married, three daughters.

**Fast, inexpensive transportation is vital to Saskatchewan — people and produce to be moved over great distances. Liberal policies in transportation spell disaster. An NDP government will oppose further rail-line abandonment, will build a super-grid road system, defend the Crowsnest rates, and will improve bus and air service.**

Fast, low cost ways of transporting goods and passengers is vital to the future of Saskatchewan. Federal policies are hurting Western Canada — they talk about abolishing the Crowsnest rates, abandoning enough branch lines to span Saskatchewan from east to west more than seven times, and destroying our country elevator system — all in the name of

so-called "efficiency". We'll continue to fight these destructive policies.

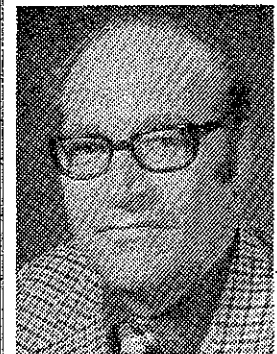

An NDP government will develop a publicly-owned northern air service, expand STC bus service, begin to construct 5,000 miles of dust-free grid roads, continue to improve our highway system — particularly secondary highways — and find ways to improve express services.

**MIKE PROCHUK**

Prince Albert

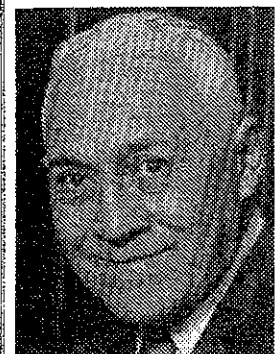

This Meath Park farmer has been a tireless worker on behalf of his constituents since his election four years ago. Active in farm and community organizations, Mike is married and has one daughter.

**GORDON SNYDER**

Moose Jaw South

Gordon has been Minister of Labour for the past four years and a Moose Jaw MLA for 15 years. A former RCAF veteran, locomotive fireman and engineer. Married, with two sons.

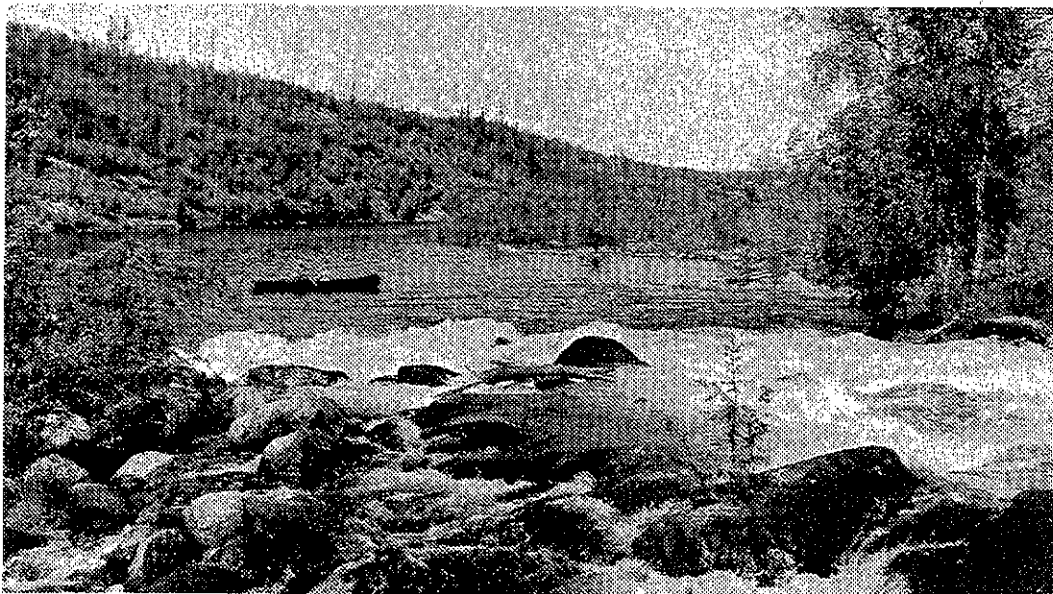

**NORMAN MACAULEY**

Cumberland

Respected leader in his community and across the north, Norman is an RCAF veteran, former commercial fisherman and former member of the RCMP. Now Area Coordinator for DNS. Married, two sons.

Northern Saskatchewan is in the midst of an economic and social miracle. The North was neglected for years and it is only under the NDP that development has begun. Distance is a big problem. The NDP will build roads, cut freight and transport costs and set up a publicly-owned airline to improve communication. The NDP is pledged to continue the work of bringing prosperity and equality to the people of the North.

In 1971, the NDP promised to develop the North. The Department of Northern Saskatchewan was set up and bold, new programs have been started. Many more people have jobs; welfare rolls have been slashed; roads, sewers, water systems, power and telephone services are being installed; hundreds of new houses are being built; new industries are being created. For the first time, the people are electing their own Northern Municipal

Councillors to make more and more of their own decisions. Northern Saskatchewan has become a great pioneering adventure for its people. They have had to fight every inch of the way against scorn and political obstruction from all sides. Only the NDP has stuck with the Northerners and supported them through all problems.

More must be done. More will be done by an NDP Government.

**DENNIS BANDA**

Redberry

Concerned and community minded, Dennis is a 34 year old Marcelin district farmer. Married, with four children, he is involved with the Wheat Pool, co-ops, Board of Trade and local sports organizations.

**ED WHELAN**

Regina North West

Ed is one of the veterans of the legislature, having served for 15 years. Prior to that, a member of the Mediation Board for 10 years. Active in his community. Married, three children.

**NEIL BYERS**

Kelvington

First elected in a byelection in 1969, Neil has served with the Blakeney government as Minister of Highways, Co-operatives and is currently Minister of the Environment. Sincere and hardworking. Married, six children.

**Recreation — The NDP**  
will help finance recreation and cultural centres, ethnic and sports groups, improve our parks and tourist facilities and develop a comprehensive recreation plan for the province. And protect selected natural areas to preserve Saskatchewan's natural history for our children and grandchildren.

Recreation is becoming more important to all of us and the NDP has developed a comprehensive program to make our leisure time more varied and rewarding.

Ethnic and cultural groups will receive new help and new resources to strengthen their contribution to our traditions. We'll give help for rinks, arenas, recreation centres, museums, together with money for cultural, sports and physical fitness programs.

Winter sports will be developed and expanded to help people enjoy the winter months. We'll encourage Saskatchewan people to become tourists in their own province. Along with this will go major help for development of new parks, new tourist facilities, and guaranteed access to our lakes and rivers.

The clean up of our environment started by the NDP in 1971, will continue. Protected areas of natural environment will be enlarged. We've much to preserve and protect for future generations — and an NDP government will do just that!

**JOHN R. MESSER**  
Kelsey/Tisdale

Canada's brightest young Minister of Agriculture, John Messer at age 34 is already a legislative veteran of eight years. A farmer in the Tisdale district, he is married and has three children.

**REG GROSS**  
Morse

Elected in 1971 at the age of 22, Reg has been impressive both in and out of the legislature. A possessor of boundless energy, Reg was married last year. He and his wife Debbie have a two month old baby son.

**NORM VICKAR**  
Melfort

Mayor of Melfort and a well known businessman. Active in the Elks Lodge, Rotary Club, and other community organizations. Norm and his wife have two daughters and a son, all of whom are married.

From 1700 housing starts in 1971 to 7700 in 1974 — that's the remarkable story of the housing industry in four years of NDP Government — a four-fold increase. Urban centres given \$100 million in grants over a five year period to improve life for their citizens — and a further \$8 million added this year to help fight rising costs — plus increased transit assistance, police, health and library grants. — A good deal for urban centres from the Blakeney Team.

An NDP government has meant good things for urban governments — \$20 per capita each year in unconditional operating grants, \$75 per capita over five years for using present prosperity to guarantee the future capital projects, 50 per cent of the cost of buses and 3c per rider in transit assistance, plus over half a million dollars to assist transportation for the handicapped. The new Saskatchewan Government Housing Corporation is providing grants of up to \$1,000 to assist those on modest incomes to buy new homes, grants to community groups for construction of senior citizens housing, assisted in the

building of hundreds of new low-rental housing units and has started new land assembly programs to discourage speculation. An NDP government in its second term of office, will introduce a program of direct assistance to renters, set up a Landlord-Tenant Appeal Board, continue the expansion of housing construction in urban and rural areas, expand the Senior Citizens Home Repair Grants and make more housing available by improving the House Building Assistance Program. We'll work with municipal governments to make life better for urban dwellers.

**PAUL MOSTOWAY**  
Saskatoon Centre  
A school teacher for 19 years, former miner and construction worker, Paul is noted for the good humour with which he takes on each task. An army veteran and active member of his community. Married, eight children.

**DELAINE SCOTTON**  
Wilkie  
No stranger to the political arena, this is Delaine's first try for election herself. Active in Wilkie Kindergarten Association, Nursing Home Auxiliary, and United Church Women, this 32 year old former teacher is married with two children.

**ELWOOD COWLEY**  
Biggar  
Mineral Resources Minister and former Finance Minister. Capable, articulate, and at just 30 years of age, already a veteran on the Saskatchewan-political scene. Married, three children.

**Visioncare — to greatly reduce the cost of eye-glasses, a footcare plan and reduced cost for dentures — just part of the practical help for senior citizens — from the Blakeney Team that brought you the Hearing Aid Plan, home repair grants, senior citizens' centres, plus a guaranteed income by October, 1975 of \$240 for singles and \$450 for couples — from the NDP — who keep their promises.**

In 1970-71 the last year of Liberal rule — the net amount of programs for the elderly was half a million dollars. Compare that with the NDP 1975-76 senior citizens package! No deterrent fees or medical premiums \$5 million; Saskatchewan Assistance Plan \$10 million; grants to patients in nursing homes \$8.1 million; construction grants for nursing homes \$1.8 million; community services \$4 million; senior citizens home repair program \$4.6 million; low rental housing \$1.2

million; pension supplement \$3.2 million; property improvement grants \$4 million. Without including such programs as SAIL, hearing aids, the drug program, home care and others, this totals \$42 million! Half a million from the Liberals, \$42 million from the NDP — Who do you think senior citizens will believe in this election? The NDP record is one of proven concern — the Liberal record is littered with broken promises. Vote for integrity — the Blakeney Team!

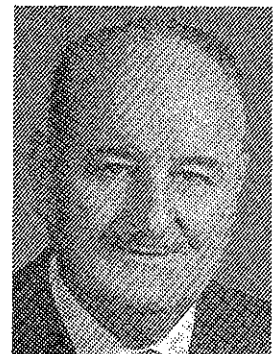

**LOUIS ROY**  
Prince Albert /  
Duck Lake

A hardhitting campaigner, Louis has visited almost every home in his constituency. A development Officer for the City of Prince Albert for 4 1/2 years, and an active member of his community. Married, with six children.

**ED TCHORZEWSKI**  
Humboldt

Elected for the first time in 1971, Ed is now holder of three portfolios — Consumer Affairs, Culture and Youth and Provincial Secretary. Former separate school teacher, Ed is 32, married and has four children.

**HENRY BAKER**  
Regina Victoria

Another veteran campaigner, Henry has served as Mayor of Regina for almost 15 years and as MLA for 11 years. A strong booster of his city, in and out of the legislature. Married, one daughter.

**Leadership in health care —  
an NDP trademark. Children's  
dental care, a drug plan, SAIL  
(Saskatchewan Aids to  
Independent Living), the Hearing  
Aid Plan, Chiropractic care,  
Medical and Hospital premiums  
abolished. Compare the Liberal  
record — deterrent fees — a tax  
on the sick — hospital closures.  
Keep Saskatchewan ahead in  
health care —  
Vote the Blakeney Team  
— proven leaders!**

The Blakeney government quickly ended the Liberal attack on our health services by abolishing deterrent fees and halting the closure of small hospitals. Then the rebuilding began. Chiropractic services insured under Medicare, Hearing Aid prices slashed as much as \$300 with the Saskatchewan Hearing Aid Plan, Dental Care without charge for all children from 5 to 7 as of September, 1975 and up to 12 by 1978. Wheelchairs, braces, artificial limbs, etc. available without charge from SAIL, and community health and social centres in place of hospitals closed by the Liberals. An NDP

government will continue to build our health care system with: Dental Care extended to cover all people up to 18 years of age, a chiropody (foot care) plan for the elderly, VISIONCARE — to reduce the cost of eyeglasses, dentures at greatly reduced cost to senior citizens; and expansions to our home care services, alcoholism programs, services for the handicapped and chronically ill, plus a physical fitness program to help lessen the impact of life-style diseases such as obesity, heart attacks and strokes.

**NDP — proven leaders in health care!**

**WES ROBBINS**  
Saskatoon Nutana

Wes has gained a reputation for his computer-like mind. MLA from 1964 to 1967, Wes was again elected in 1971 and was named Minister of Finance. Married, two daughters, one son.

**GORDON McNEILL**  
Meadow Lake

Gordon is a war veteran, Justice of the Peace, former CNR railroad man, and tourist camp operator. He is married and has lived most of his life in northern Saskatchewan.

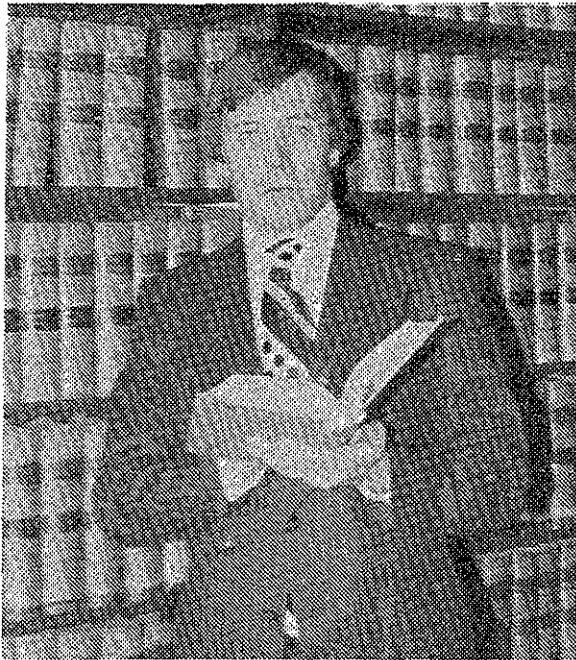

**TERRY HANSON**  
Indian Head/Wolseley

A young farmer, first elected in 1971. Terry has distinguished himself in and out of the legislature on committees dealing with land ownership, municipal affairs, agriculture and highways. Married, 31, four children.

# Keep Regina Centre Ahead

**NED SHILLINGTON  
IS THE BEST PERSON  
TO REPRESENT  
REGINA CENTRE.**

## **YOUTHFUL**

- Ned is 30 years old; born at Caron, Saskatchewan of farming parents.

## **EXPERIENCED**

- Ned served as Executive Assistant to Attorney General Roy Romanow until 1974, and is currently engaged in private law practice.

**NED AND HIS WIFE SONIA ARE  
RESIDENTS OF REGINA CENTRE.**

**When Elected, Ned Shillington will LISTEN  
and TAKE ACTION on behalf of —**

### **TENANTS**

- direct assistance for renters.
- establish a Landlord-Tenant Appeal Board.
- assist and promote the development of more multi-family dwellings.

### **SENIOR CITIZENS**

- improve the minimum income plan for senior citizens.
- make dentures and eyeglasses available at reduced cost.
- introduce a chiropody (footcare) program.

# Elect Shillington, N.D.P.

**COMMITTEE ROOMS:  
1915 Osler Street  
Phone 523-1679**
