

# MORTGAGE INTEREST REDUCTION PLAN 13 1/4%

This will provide a ceiling on mortgage rates at 13 1/4% on a principle residence. This straightforward plan will apply to existing mortgages, renewals, and new mortgages with an upper limit of \$50,000.00. Based on current rates, this will mean a saving of \$143.09 per month on a \$34,000.00 mortgage or \$210.18 per month on a \$50,000.00 mortgage — a great commitment to the people of Saskatchewan — our future and our families.

# PROTECT AND PRESERVE THE FAMILY FARM

A new P.C. government is committed to the family farm. Our heritage is farmers who own their own farms. That can also be our future. A Progressive Conservative government will assist in the transfer of farm land through a once in a life time loan of up to \$350,000 at 8% for five years and 12% thereafter. This program will ensure that farm ownership is within the reach of young farmers. A Progressive Conservative government will be committed to the preservation of the Crow rate, realizing our farming community cannot afford further cost increases.

Dear Friends:

During every election campaign it is common for those seeking office to emphasize how important the election is. After all, each election is an important expression of our democratic rights.

Over the past decade changes throughout the world have increased the value of our natural resources many times over. Saskatchewan's great potential has never been more clear. Yet only the government has grown rich. We remain among the most heavily taxed and lowest per capita income groups in Canada. In terms of our standard of living, and in terms of our personal freedoms and choices, the government has grown wealthier and more powerful while we have grown poorer and more restricted.

Quite simply, the critical decision in this election is whether we are to become servants of the government in the next decade or whether we enter a new era where our government becomes the servant of our people. I believe that with careful management of our vast resources, and a government determined to serve our people, Saskatchewan will rise to the greatness we all know awaits us. There really is so much more we can be.

Sincerely yours,

Grant Devine

# COMMITMENT

**PROGRESSIVE CONSERVATIVE PARTY OF SASKATCHEWAN**

## **ELIMINATE THE GASOLINE TAX**

A new P.C. government as a major anti-inflationary measure will remove the 20% provincial sales tax on gasoline. The savings of 40 cents per gallon (or \$8.00 per 20 gallon fill-up) will mean great savings to the people of Saskatchewan who have faced high increases in the past few years.

## **REVITALIZE AND IMPROVE HEALTH CARE**

A new P.C. government will place great emphasis on improving the delivery of health services by providing more adequate financing to our hospitals; by avoiding waste and duplication between the Departments of Health and Social Services; by expanding the drug plan; by guaranteeing a first-rate ambulance system; by ensuring adequate special care facilities for senior citizens; by ensuring that all areas of the province have access to the best in medical care.

## **ELIMINATE THE 5% SALES TAX ON CLOTHING AND UTILITY BILLS**

This measure will be the first phase of a new P.C. government's commitment to the complete elimination of the sales tax in its first term of office and its commitment to ease the burden of inflation for Saskatchewan citizens.

## **IMPROVE THE QUALITY OF RURAL LIFE**

A new P.C. government will expand the natural gas network throughout the province, thereby reducing energy costs to our farms, villages and towns; create a Rural Community Development Program to revitalize commerce and small business in rural areas; and ensure that adequate social services and health facilities, including special care units for senior citizens, are available in all rural areas; and place major emphasis on agricultural processing in our rural communities.

## **FREEZE PUBLIC UTILITY AND INSURANCE RATES**

Saskatchewan families have faced tremendous increases in the past few years in telephone, power, natural gas and insurance rates. A new P.C. government will institute an immediate freeze and establish a Public Utilities Review Commission to monitor rates and protect consumers from unjustified increases.

## **PROVIDE JOBS AND OPPORTUNITIES**

A new P.C. government will be committed to providing opportunities for our work force. Jobs will be created by the Mortgage Interest Reduction Plan, The Rural Community Development Program and the Rural Gasification Program. An industrial strategy will emphasize development of a renewable resource potential. That will ensure permanent, rewarding jobs here in Saskatchewan. Education and training programs will be upgraded so young people can take advantage of the opportunities and workers can improve their skills.
