JOBS:

Provided through orderly and balanced economic growth. We will put an end to the "ad hoc" approach to economic recovery tried by both the other parties.

HEALTH CARE:

Access to first-class health care is a right of all British Columbians. Extra billing by doctors will never be tolerated by Liberals.

EDUCATION:

A return of authority to local School Boards. Liberals are committed to fully funded education as an "Investment in B.C.'s Future".

LABOR RELATIONS:

Liberals would not support changes to the Labor Code until a Commission of Labor and Business can come to an agreement on necessary changes. Liberals promote a tax incentive to encourage profit-sharing between employees and employers.

TAXES:

Liberals will promote the phase out of the sales tax within four years.

ENVIRONMENT:

Liberals would institute a Coastal Management Commission representing all levels of government, environmentalists and industry to plan development and environmental protection for the coast of British Columbia.
